

DOGERUSH

WHITEPAPER

WHAT IS DOGE RUSH

Doge Rush is the world's first P2E single-player mobile runner game with NFT assets. Collectible coins have been a feature in side-scrolling runners from the beginning; Sonic Dash had rings, and Super Mario had coins. What if those coins were real, bonafide currency? Doge Rush rewards you for every coin you collect with the opportunity to pile up \$DR coins for in-game prizes and real-world cash. In our groundbreaking P2E runner, every coin you collect in-game goes right to your wallet at the end of the level. For the first time, play a hilarious side-scrolling runner that's worth your time—literally.

HOW TO PLAY

You play as Doge. Your mission? Escape Elon Musk while dashing through the derelict subways of a dystopian underworld. Yeah, Doge Rush has serious meme potential. Control Doge by swiping up, down, left, and right to collect coins while you evade Elon's clutches. As you progress through the game, the pace grows faster; more obstacles get in your way. The harder the game gets, the better your opportunity to earn points, and as a result, more crypto. Doge Rush has a variety of unique characters with upgradable NFT skins, which differ in prices and est. ROI that players will get. Upgrade your character to higher levels, fuse it with another one to boost your earnings from playing, or sell it to other players via the Doge Rush marketplace. The ability of this game is insane; get into \$DR before it goes viral.

PLAY TO EARN

Play and Earn crypto in the free-to-play mode or amplify your earnings by acquiring NFTs which differ in rarity and estimated ROI. The appeal of Doge Rush extends far beyond the lulz—the stakes are high because when you do well, you can earn real money. Think of all the time you sink into video games. If you were paid to play video games, you'd be making bank, right? Doge Rush gives gamers the chance to make real money. Play 2 Earn games like Doge Rush reward the time and effort you put into the game with the chance to earn \$DR.

Disclaimer

You should always consult your own advisors concerning the legal and tax implications in your country of origin and any other aspects regarding any outstanding matters related to how the Doge Rush platform is designed and operated, before deciding whether a purchase of Doge Rush Coin would be in line with their risk profile. Purchasing Doge Rush Coin involves an element of risk and may lead to the loss of a substantial part or the entirety of the principal deposit advanced. Before purchasing Doge Rush Coin, diligently and thoroughly assess and consider the risks identified in this whitepaper, as well as other risks not included or anticipated in this document. This Whitepaper does not constitute a prospectus and does not constitute as an offer of financial instruments and/or securities to the public or any offer in any way connected to a collective investment scheme. This whitepaper, the Doge Rush Coin and the use, holding and trading of the Doge Rush Coin carry no rights, whether express or implied, Doge Rush do not represent or confer any ownership rights, shares, securities or equivalent rights, intellectual property rights or any other form of participation relating to the Issuer. This Whitepaper does not infer that the information it contains is accurate and complete subsequent to its date of publication or that any information supplied in connection with this whitepaper is completely accurate at any time subsequent to the date on which it is supplied

Crypto assets are not regulated as financial instruments and there is no refund or compensation available from any regulatory bodies. Doge Rush Coin does not give the holder thereof any entitlement to acquire any such interest or entitlement in respect of the Issuer. Furthermore, the Issuer shall not be obliged in any way to return any investment made in virtue of this Whitepaper. Crypto assets can be subject to expropriation and/or theft. Computer hackers or other malicious groups or organisations may attempt to interfere with the Doge Rush Coin platform in a number of different ways. Because of the nature of blockchain transactions there may be no remedy if a successful attack by malicious actors was to take place against the Ethereum Chain that the Doge Rush platform is built on. There is a possibility that in the future, certain laws, regulations, policies or rules relating to crypto assets, blockchain technology or decentralized applications may be implemented that affect or restrict token holders' acquisition, ownership rights, and ability to buy, sell, convert or use crypto assets such as the Doge Rush Coin. Notwithstanding anything contained herein to the contrary, you specifically acknowledge and agree that trading and/or transaction in/ with Doge Rush may be prohibited in certain jurisdictions including, without limitation, UNITED STATES OF AMERICA AND ITS TERRITORIES, CANADA, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA (NORTH KOREA), CUBA, SYRIA, IRAN, SUDAN, CRIMEA REGION OF UKRAINE, PEOPLE'S REPUBLIC OF CHINA ("Excluded Jurisdictions") [MDG1] [JSH2] THE DOGE RUSH COIN UTILITY OR THE PROJECT DESCRIBED IN THIS WHITE PAPER ARE NOT GUARANTEED TO BE DELIVERED.

Risks

Below is a non-exhaustive list of the primary risk factors that the Company considers to be significant in relation to the token's trading and/or use. These risk considerations should be taken into consideration alongside all other information provided in the Whitepaper and participants are recommended to check with their professional advisers (including their financial, accounting, legal, tax, or technical advisers or experts). The risk of losing access to DR token due to the loss of private key(s), a custodial error, or a participation error is as follows: A wallet is required for the acquisition, storage, and disposal of DR Tokens. The participant acknowledges that he is responsible for establishing the Wallet with a third-party provider to retain DR Tokens and for taking acceptable security measures to protect the wallet. As a result, if the requisite private key(s) associated with the Wallet holding DR Tokens are lost, the DR Tokens and any other cryptocurrencies and/or tokens will be lost as well. Additionally, any third party that has access to such private key(s), including through the Participant's Wallet's login credentials, may be able to misappropriate the Participant's DR Token. Any errors or malfunctions caused by or relating to the Wallet used by the Participant to receive and hold DR Tokens, including the Participant's own failure to properly maintain or use such Wallet, or caused by the Participant's choice of third-party provider for the Wallet, may also result in the loss of DR Tokens.

Hacking risk and security flaws:

Denial of service attacks, Sybil attacks, spoofing, smurfing, virus attacks and any other similar events that could have an influence on DR Tokens and the services the Company may offer from time to time may be attempted by hackers or groups of hackers. The risk of security flaw in the Smart Contract, the Website, or the source code of the DR Tokens, or in any associated software and/or infrastructure: There is a possibility that the Smart Contract, the Website, or the DR Tokens may have inadvertent flaws or vulnerabilities in the source code, preventing users from using or losing DR Tokens. Updates and modifications may have unwanted or unforeseen consequences for DR Tokens.

Risk of not listing or low/no liquidity:

Exchanges may be subject to unclear governmental control, and the Company makes no representations or warranties about exchange service providers. Users, including the participant, may be subject to fraud and failure in connection with those exchanges. There is no guarantee that an active secondary market for DR Tokens will develop or continue to develop.

Risk of uninsured losses:

Unlike bank accounts or accounts with financial organizations, DR Tokens are not covered unless the participant buys private insurance particularly for that purpose. There is no public insurer for the loss of DR Tokens.

Internet transmission risks:

There are threats connected with the use of DR Tokens, including the failure of hardware, software, and Internet connections, as well as other technologies on which DR Tokens rely. These failures may cause communication breakdowns, mistakes, distortions, or delays when utilising DR Tokens or the Website.

Risk of price fluctuation:

The quotation of the DR Token can fluctuate presenting a challenge to model and estimate the future market behaviour even for seasoned cryptocurrency traders. Native cryptocurrencies associated with the internal working of the networks to which the DR Token is deployed are also subject to fluctuations that directly and indirectly could impact the token's value in the market. The Participant must comprehensively acknowledge price fluctuation risks of the cryptocurrency market and that still cryptocurrencies are traditionally subject to these significant price fluctuations that are beyond the control of the Company and driven mostly by exterior or market forces. The Participant also recognises their DR Token value can go down as well as up and they could lose some or all their investment.

Other risks:

The Participant acknowledges and accepts the inherent risks connected with DR Tokens, including, but not limited to, risks associated with money laundering, fraud, exploitation for criminal purposes and any other unanticipated dangers. If any of the risks described in the terms are unacceptable to the Participant and the Participant is unable to comprehend them, the Participant should refrain from acquiring, holding, or using DR Tokens. [MDG3] BY AGREEING TO THESE TERMS AND CONDITIONS AND PARTICIPATING IN THE DOGE RUSH PRESALE, YOU ARE WAIVING YOUR RIGHTS. YOU AGREE TO HAVE NO RECOURSE, CLAIM, ACTION, JUDGMENT, OR REMEDY AGAINST DOGE RUSH. WE STRONGLY URGE YOU NOT TO PURCHASE ANY DOGE RUSH COIN IF YOU ARE UNCERTAIN ABOUT ANYTHING IN THIS WHITE PAPER OR IF YOU ARE NOT PREPARED TO LOSE THE MONEY YOU SPENT PURCHASING DOGE RUSH TOKENS
